TCR – Joker: clarification

Dear Manufacturers,

With reference to the Technical Bulletin N.2- 2026 (containing the details of the Joker Certification documents), the following information are circulated to clarify its operative application:

- When officially released, the document is published on the TCR Hub and become available to the teams. A copy of the document is upload also on the TCR Server, in the Technical Delegate reserved area.
- Each Joker document contains also the date of when it becomes mandatory (12 months after certification).
- In these 12 months period, a team willing to use the Joker must declare it to the technical delegate by the end of an event's technical scrutineering session:
 - o before declaring it, a car cannot be equipped with the Joker and must use the original component.
 - o after declaring it and for the rest of the championship, this car must use the Joker and cannot use anymore the original/replaced component.

Best regards

TCR Technical Department
